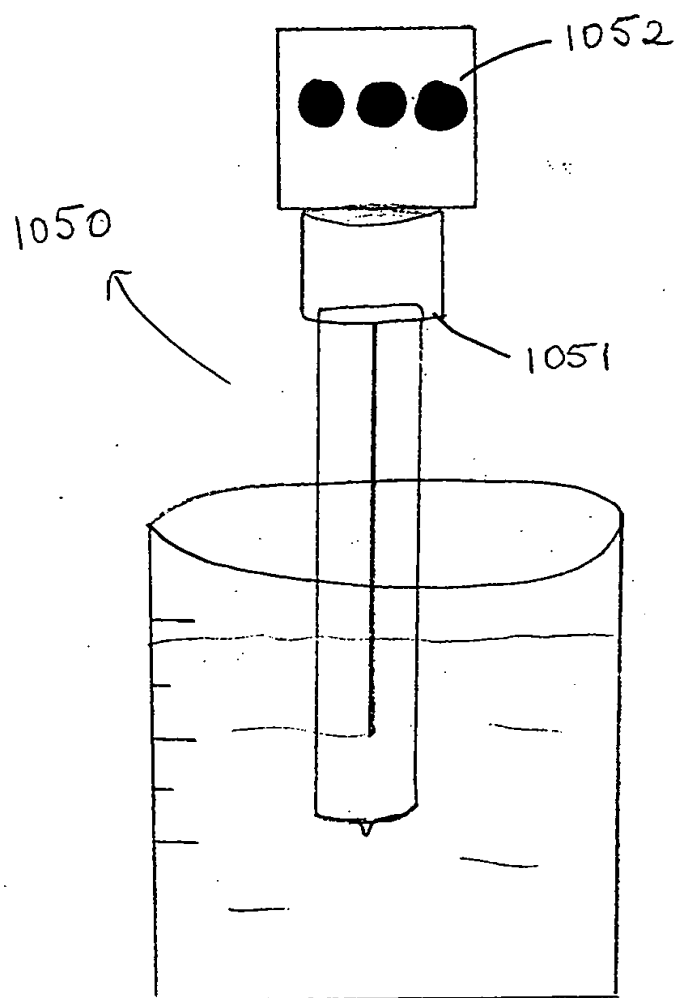

Fig. 81

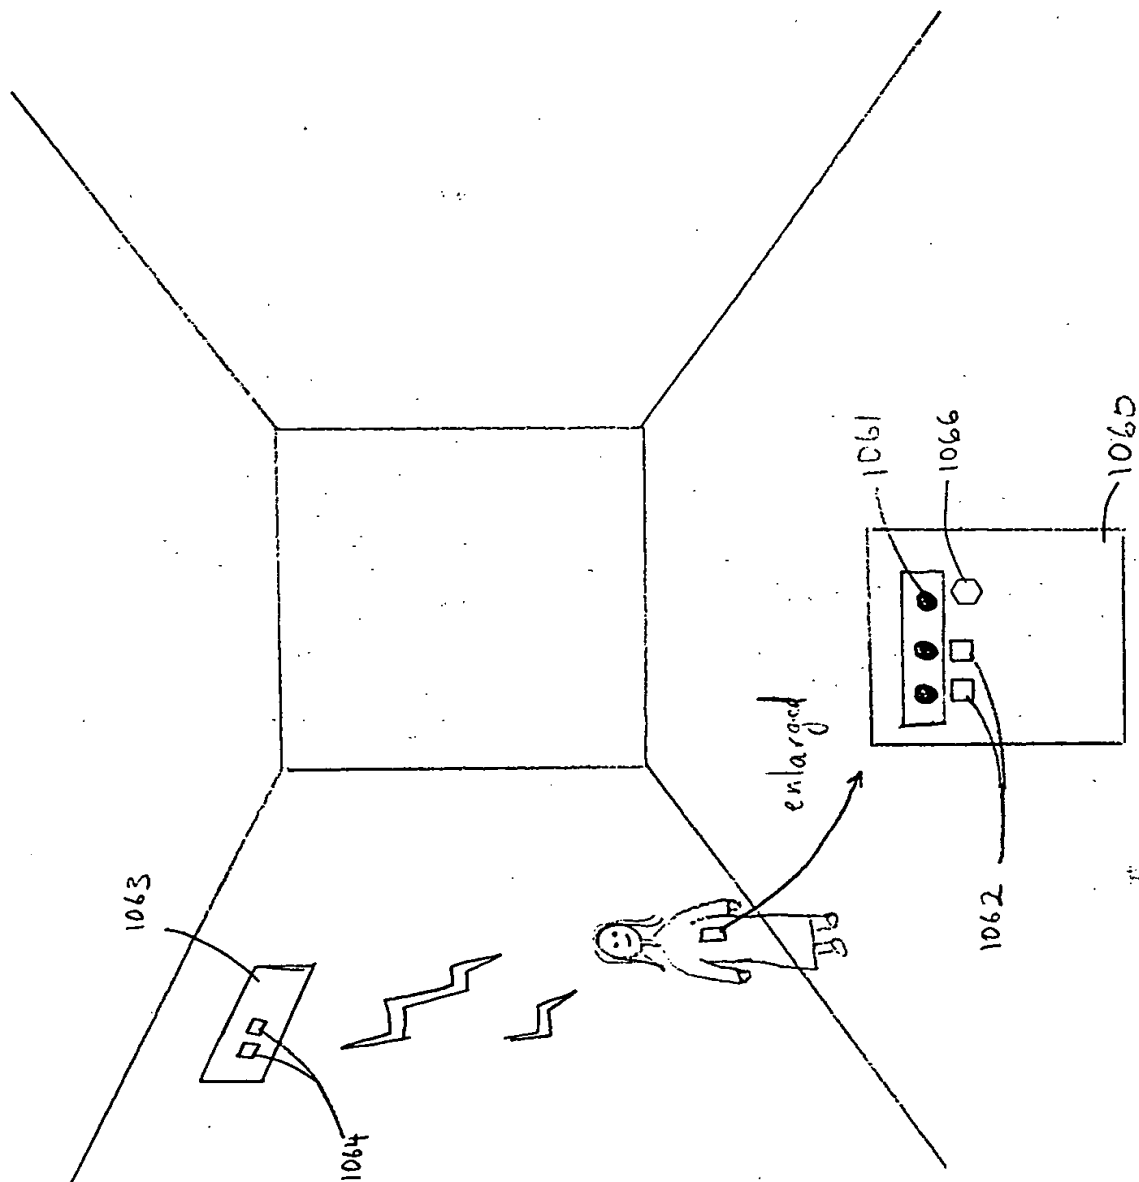

Fig. 82

A hand-drawn diagram of a room layout. The room is represented by a large rectangle with lines extending from the corners to represent walls or a perspective view. In the center of the room is a rectangular table. To the right of the table is a chair. A person is standing next to the chair, facing the table. The person is drawn with a simple outline and a head. The table has a grid pattern on its surface, possibly representing a tablecloth or a specific layout. There are four small circles with lines radiating from them, located at the corners of the room, possibly representing lights or decorative elements. The number '1072' is written near the top left corner of the room, and the number '1071' is written near the bottom right corner of the room.
